2. Contact Information

Company		**Contact Name**	
Email		**Phone / Website**	

3. RWA Service Scope

No	Service	Scope
1	**Project & Data Collection**	Collect and organize company, founder/team, project, asset, financial, and supporting information required for the project.
2	**Asset Definition & Assessment**	Define the underlying real-world asset and assess its ownership structure, value, revenue/cash flow, risks, and tokenization feasibility.
3	**Token Economic Design**	Design token supply, pricing, allocation, offering structure, vesting, lockup, distribution, and token economics.
4	**Smart Contract Development**	Develop and configure smart contracts, including ERC-20, ERC-3643, or Solana, with transfer restrictions, vesting, and token controls where applicable.
5	**Regulatory Route Planning & Application Support**	Plan the appropriate regulatory route, including Reg D, Reg S, or Reg CF, and prepare supporting information for related filing/application workflows.
6	**Offering Document Preparation**	Prepare project and offering materials, including White Paper, PPM support, disclosures, token terms, risk information, and supporting documents.
7	**Project & Offering Website Development**	Develop professional project and fundraising websites presenting the asset, offering terms, token structure, documents, and investor information.
8	**Token & Investor Portal Development**	Develop portals for token issuance, investor onboarding, token holdings, distribution, vesting, offering records, and ongoing token/investor management.
9	**Marketing & Promotion Support**	Support PR, media outreach, project exposure, and investor awareness through blockchain, financial, and technology media channels in Asia, the U.S., and Europe.

Third-party and professional fees are quoted separately: Legal Consulting, Financial Audit, Government/Filing Fees, KYC/AML usage fees, Smart Contract Audit, Escrow, Custody, Broker-Dealer, Transfer Agent, Financial Advisory Services, Marketing/PR placement fees, and ATS/Exchange Listing.
